CERTIFICATION BULLETIN CCH-2016-191

To: Subscribers/Listees to ULC's Listing Service for Vault Ventilators and Vault-Ventilating Ports (YUUTC)

Subject: Harmonization of Vault Ventilators and Vault-Ventilating Ports (YUUTC) with the new certification category Vault Ventilators and Vault-Ventilating Ports Certified for Canada (YUUT7)

UL as an enterprise is striving to offer to its customers combined Canadian Certification Directories. In doing so, Underwriters Laboratories of Canada Inc. (ULC) and UL LLC are harmonizing their Canadian Certification categories in order to come up with a single Canadian Listing Directory for certified (Listed) products.

Consequently, UL is harmonizing the certification category Vault Ventilators and Vault-Ventilating Ports (YUUTC) by establishing a new certification category Vault Ventilators and Vault-Ventilating Ports Certified for Canada (YUUT7). As the category YUUTC is being harmonized, the Product Listings that are currently certified under YUUTC will now be under YUUT7.

The harmonized categories will represent manufacturers who received authorization from ULC and shall continue using the authorized mark for Canada.

There are certain administrative activities that are taking place; one such activity is creating a new Category Control Numbers (CCN's, an internal terminology used for tracking). Any necessary revisions to your File will be notified and will be at no charge to you. We anticipate completing this transition by March 31, 2017.

Your Field Representative can assist you with any questions regarding the change in category. If you have additional questions please contact Erika Hannibal via phone at (847) 664-2541, or email erika.hannibal@ul.com.

Please share this Bulletin with other interested parties within your organization.

Sincerely,

**Issued under the joint responsibility of Underwriters Laboratories of Canada Inc. & UL LLC.
