STANDARDS BULLETIN 2016-37

NEW EDITION

Third Edition of CAN/ULC-S132:2016

STANDARD METHOD OF TESTS FOR EMERGENCY EXIT AND EMERGENCY FIRE EXIT HARDWARE

ULC Standards is pleased to announce the publication of the Third Edition of CAN/ULC-S132, Standard Method of Tests for Emergency Exit and Emergency Fire Exit Hardware. This Standard has been approved by the ULC Standards Committee on Fire Tests and has been published under the date of November 2016.

This new edition includes the following changes:

- Update to Referenced Standards and relocated within the normative section of the standard; and
- Clarified conditions of acceptance for Emergency Exit Hardware (Panic Exit Hardware) and Emergency Fire Exit Hardware.

The requirements in this Standard cover emergency exit hardware and emergency fire exit hardware that will actuate the latching mechanism on a door to allow it to swing open when force is applied to the device.

If you require any additional information, please contact Mary Huras at (613) 755-2729 ext. 61425 or by email at Mary.Huras@ul.com.

This Standard can be ordered for \$240.00 CAD (Hardcopy) or \$200.00 CAD (PDF) from the ULC Standards website at <http://canada.ul.com/ulcstandards/>. Click on *Sales of ULC Standards Materials* for further details.

Yours truly,

ULC Standards
