STANDARDS BULLETIN 2016-44

NEW EDITION

Third Edition of CAN/ULC-S629

STANDARD FOR 650 °C FACTORY-BUILT CHIMNEYS

ULC Standards is pleased to announce the publication of the Third Edition of CAN/ULC-S629, Standard for 650 °C Factory-Built Chimneys. This Standard has been approved by the ULC Standards Committee on Factory-Built Fireplaces, Chimneys, and Vents (S600E) and has been published under the date of December 2016.

This Standard applies to apply to Factory-Built Chimney assemblies which do not require field fabrication. They are for use with gas, liquid and solid fuel-fired residential appliances and building heating equipment, where the flue-gas temperatures normally do not exceed 650 °C.

This Third Edition National Standard of Canada is based on, and now supersedes, the Second Edition.

The changes in this Third Edition CAN/ULC-S629 include:

- Revisions to the requirements for marking and label performance;
- Updates to the installation instructions requirements;
- Addition of attic insulation shield requirements;
- Updates and additions to the referenced publications; and
- Revisions throughout the Standard for clarity and consistency.

This Standard can be ordered for \$155.00 CAN (Hardcopy) or \$130.00 CAN (PDF) from the ULC Standards website at www.ulc.ca/ulcstandards/. Select *Sales of ULC Standards Materials* for further details.

If you require any additional information, please contact Gillian Ottley at 613 755 2729 ext. 61427 or by email at Gillian.Ottley@ul.com.

Yours truly,

ULC Standards
