STANDARDS BULLETIN 2017-09

NEW EDITION

Fifth Edition of CAN/ULC-S701.1:2017

STANDARD FOR THERMAL INSULATION, POLYSTYRENE BOARDS

ULC Standards is pleased to announce the publication of the Fifth Edition of CAN/ULC-S701.1, Standard for Thermal Insulation, Polystyrene Boards. This Standard has been approved by the ULC Standards Committee on Thermal Insulation Materials and Systems (S700A) and has been published under the date of March 2017.

This Standard specifies the requirements for factory made rigid polystyrene insulation in the form of boards with or without facings or coatings made by moulding of pre-expanded beads (EPS) or extrusion of polystyrene (XPS). This Standard does not apply to laminated products manufactured with any type of rigid board facer including fibreboard, perlite board, gypsum board, or oriented strand board.

The changes in this Fifth Edition CAN/ULC-S701.1 include:

- Removal of reference to pipe covering in normative content;
- Updates to the referenced publications;
- Updates to definitions to align with CAN/ULC-S773;
- Revision of sample size and selection;
- Removal of conditioned thermal resistance requirements for extruded polystyrene insulation (XPS);
- Revision to reporting and marking and/or labelling requirements; and
- Addition of safety related markings and warnings.

This Standard can be ordered for \$250.00CAN (Hardcopy) or \$200.00 CAN (PDF) from the ULC Standards website at <http://canada.ul.com/ulcstandards/>. Select *Sales of ULC Standards Materials* for further details.

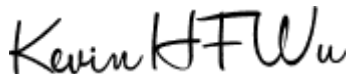

If you require any additional information, please contact Kevin HF Wu at (613) 755-2729 ext. 61437 or by email at Kevin.HF.Wu@ul.com.

Yours truly,

ULC Standards
